

# PREFACE

From Judge Dale's "*The Sovereign Citizen*;"

## WHAT IS SOVEREIGNTY?

It is the inherent right and prerogative of a civilized people to rule itself, and to dictate all of the forms and conditions of the institutions it sets up to carry out this rule.

## WHAT IS THE DE FACTO GOVERNMENT?

The state and federal governments are corporations, as are the U.S. Congress, State Legislatures, City Councils, Municipalities and all State and Federal Courts, that have been posing as Constitutional branches of government.

All of these corporate government corporations and their corporate laws that have come into existence since the Civil War have acted to aid and abet the usurpation of the organic Constitution of the United States of America. All State Governments and their courts are now sub-corporations of the Federal Government, and so no longer independent states and foreign countries relative to the Washington D.C.

These corporations are privately owned businesses, meaning that the Corporate United States belongs to one or more private individuals. The Corporate United States is privately owned by a group of European Royal and Elite individuals tied to the Federal Reserve System and the letters of incorporation are recorded in the Vatican. The President of the United States is actually the CEO of the United States, and the Congress and the courts all currently function under the Executive branch of government, instead of as three separate branches of government. Everything they do is in the interest of the corporate owners!
